

## The News.

The news of great events which we chronicled yesterday, namely, the taking of Richmond and Petersburg with a large number of rebel prisoners, is fully confirmed by our latest dispatches. The details we get to-day, though less exciting, are extremely interesting, and show that the irregular movements of Grant and his Generals were not fully anticipated by the enemy, and a very large amount of railroad rolling stock fell into the hands of Gen. Weitzel, in Richmond. It appears, too, by the Fort Monroe dispatch that there must have been a fight between our iron-clads and those of the enemy, on the James.

From the large amount of castaway guns, broken and half-burned army wagons, wasted ammunition, cannon, caissons, &c., the retreat must have been a rout.

We get nothing definite as to the exact whereabouts of Lee and his remnant of an army, but it is pretty evident that he is hemmed in on all sides and that his race must be limited to a few days. Gen. Grant is already far on the way in pursuit of the retreating foe.

By the details of fighting given elsewhere, it will be seen that it was of the most sanguinary and desperate character. In all the larger towns of the country, the fall of Richmond was celebrated with vim yesterday and last evening. Gold closed at 146 1/2.

## State News.

The West Bend Post chronicles the death by drowning of a little son of Mr. Lackow, of that village. He fell into the river while out walking with his mother.

The Fond du Lac Reporter says steps have been taken in that city to organize a young men's christian association. One hundred and sixty dollars have been subscribed for temporary expenses. Also that the dam of Soper's Mill went down stream last Saturday. This is the first time the whole dam ever gave way since the mill was built, some fifteen years ago. The receipts of the C. & N. W. Railway at Fond du Lac for the third week in March, were \$10,807.94, an increase of 30.92 per cent over the same week of 1864. The receipts of the month to the 21st, foot up \$338,454.82, an increase of 36.86 per cent.

THE INTERNAL REVENUE.—We notice by information from the proper Bureau, that the receipts of revenue from July 1, 1864, to Saturday, March 25, 1865, were \$150,664,846.84. As the increased taxation commences on the 1st of April, and as the returns of the income tax will reach here in June, it is safe to estimate that the receipts of internal revenue, for the present fiscal year, will exceed \$200,000,000. This is somewhat over the sum total realized in Great Britain in 1864, from tobacco duties, stamps, taxes, and property and income taxes, and will more than pay the interest on our public debt, which has been estimated at \$180,000,000. The other expenses of the Federal Government, for the present fiscal year, have been estimated at \$465,000,000. In round numbers there will be \$445,000,000 to be provided for by some other means than home taxation.

A large number of artisans engaged on the Capitol, and also the large body of laborers and mechanics usually employed in the several government works at Washington will have to be discharged at the end of the fiscal year (June 30th) because of the failure of Congress to pass the appropriations therefor.

Tax Rhode Island Legislature passed an act at its late session, in effect repealing the usury laws, by a decided majority. It provides that the rate of interest shall be six per cent, unless a different rate is expressly stipulated.

HENRY A. WISE—who, at the commencement of the war, advised the Southerners to convert all their old iron into swords, cutlasses, spears, and such ugly things—appears to think the rebellion has "gone too far."

SOME idea of the profits of sutlers may be gained from the fact that in the Army of the Potomac, in three days one man sold apples enough at from five to eight cents each to come to \$300.

The average loss of horses in the Federal service is 500 a day, according to Mr. Stanton's report; and yet that functionary says the stock of horses in the country has not been reduced by the drain of war.

THE payment at the New York Postoffice of money orders sent from various parts of the country, averages \$1,500 per day. The value of orders sent out from that city do not average one-third that amount.

THE CURRENCY.—The Madison Journal learns from the Bank Comptroller that the amount of Wisconsin circulation returned and destroyed since March 1st, \$1,055,000.

A Connecticut man has invented a watch which is simpler in its mechanism than ordinary watches, and will run 380 days with once winding.

Some English travelers think they have discovered Rebecca's well at Harran, near Damascus. But have they seen Rebecca?

Tax Onondaga Indians, of New York, want to break up their joint domain and live like Christians.

THE FAIR.—A donation of \$21 from a contribution in the Congregational church is gratefully acknowledged by the ladies who are striving to make the contributions from Janesville worthy the reputation of our patriotic city.

THE TOURNAMENT AT THE HYATT HOUSE, LAST EVENING.—The less said about it the better. It was creditable neither to the town nor to the citizens.

NOTICE.—A social meeting of all ladies and gentlemen interested in the fair will be held at the residence of Mrs. Jackson, at 7 o'clock Thursday, April 6th.

PROFESSOR FITZGERALD'S Social last Wednesday evening was well attended. To-morrow evening his next party comes off at McKee's Hall.

THE important discovery that South American dried or jerked beef can be imported to England and sold to the consumer for three cents per pound has given John Bull a new sensation. No wonder! for in this thing we have one of the most important discoveries of the age, not only to the densely populated Western nations of Europe, but to all the great seaboard cities of the United States, from Boston to New Orleans.

TEMPER is so good a thing that we should never lose it.

## New Advertisements on fourth page.

## The Election.

The election to-day passed off in this city quietly almost to sleepiness. The vote up to the hour of going to press, is rather light.

## CELEBRATION TO-MORROW EVE.—It is proposed that our city celebrate the taking of Richmond and Petersburg to-morrow evening. The exercises will consist of the ringing of bells, firing of cannon, bonfires, speeches &amp;c. A full programme will be published to-morrow. Come out and let us rejoice together over the great and glorious victories our armies have achieved.

## GOOD FOR THE C. &amp; N. W. R. It.—As soon as the news of the fall of Richmond was known in Chicago, the officers of the Chicago &amp; Northwestern road telegraphed up the line of the road to give their employees a half holiday. The locomotive Madison, under the efficient engineer, Tom King, which drew the passenger train in the afternoon was handsomely decorated with flags. We like these exhibitions of patriotic feeling on the part of the corporation.

## OPENING DAY.—The ladies will learn with pleased interest of the opening of spring millinery goods on Thursday next, at Mrs. Beale's. The rare taste she exercises in the selection of such goods is well known by all our lady friends, and they will not fail to examine the choice things she has provided. She has also a large and fine assortment of hats for gentlemen's wear, which will be found desirable.

## NEW JEWELRY ESTABLISHMENT.—Mr. W. L. Gooking, recently from Centralia, Ill., has purchased the stock of Messrs. Withington &amp; Co., and purposes to put in a new and large assortment of jewelry of the most approved kinds. He is a gentleman who has large experience in the business, and comes here to make a permanent home.

## DIDN'T SEE IT.—We called attention yesterday to an advertisement of Mrs. Irwin, which our readers did not see for the reason that it was not in the paper. Mrs. Irwin is a lady of taste and skill in her branch of business, and eminently worthy the patronage of our citizens.

## ALLENS GROVE ACADEMY.—This popular institution under the charge of Prof. Montague, is yearly increasing in favor. Its last term was more fully attended than any one before. The next term commences on the 12th of April, and closes on the 30th of June.

## REJUVENATION.—The building recently occupied by Mr. Thos. Woolisroff is undergoing a thorough overhauling, preparatory to the removal of the postoffice into it. The new location is a capital one, and will accommodate the public much better than the old one.

## THE FAIR.—A donation of \$21 from a contribution in the Congregational church is gratefully acknowledged by the ladies who are striving to make the contributions from Janesville worthy the reputation of our patriotic city.

## THE TOURNAMENT AT THE HYATT HOUSE, LAST EVENING.—The less said about it the better. It was creditable neither to the town nor to the citizens.

## NOTICE.—A social meeting of all ladies and gentlemen interested in the fair will be held at the residence of Mrs. Jackson, at 7 o'clock Thursday, April 6th.

## Letter from Johnstown Center.

[For the Gazette.]

JOHNSTOWN CENTER, April 1st 1865.

Dear Gazette:—Did you ever hear of such a place as Johnstown Center? Re-

turning in her manners as usual, she is not first to speak, but when she does, she is always expected to say something. She is pleasantly situated on Rock Prairie, contains some less than a thousand inhabitants, passably good looking, and progressing in the arts and sciences. Public improvements are, most of them, visible to the naked eye. One church indicating a belief in a future state of existence, but at the time of writing, minister, deacons, and congregation are among the things that have been. One tavern, which by the enterprise of its present proprietor, Mr. Holmes, is "bringing up to grade" and we cheerfully recommend to travelers, to call and see for themselves. One store running on high pressure principles, "greenbacks," taken at par. Messrs. Dodge & Newhall, are very obliging, ready to attend to customers at the first time of asking. One shoeshop, where our friend McGowan repairs under-

standings, and renews soles, at prices to suit the times. One blacksmith shop, a pair of hay scales, liberty pole and town pump, all in working order. A postoffice, where dead letters are seldom found, and sometimes, not many live ones. A physician, O. M. Bond, who takes care of our own sick and manages to do considerable for neighboring towns. Being a law abiding community, lawyers with their friend Blackstone, are not needed. Mechanical genius, like gold in war times, has a rising tendency, and things both useful and ornamental are here manufactured. Well curbs and buckets, chain pumps, washing machines, wood saws to run by horse-power, in short, from a windmill, down to checker boards, clothespins, and bass wood whistles if ordered. A perpetual motion is needed to propel a grist mill, and any man who will furnish one accompanied by a chinch bug exterminator, would be sure to win a fortune.

People from larger towns wishing to retire from business, and having a few thousands to spare in the purchase of village sites, cannot come to the Center a minute too quick, as at any time when good offers are made, property is likely to change hands. Those wishing to live on the interest of their money after the principal is gone, will find good accommodations with Mr. and Mrs. Pickett who keep open doors, and entertain company free of charge. A Good Templar's Lodge, by the friendly aid of our citizens is established and is now in a flourishing condition, and exerting a happy influence. The farming country around us, is remarkably fine. Janesville is the Egypt of Johnstown, only most of the corn is at the latter place. The political tide here gets sometimes a little muddled, throws up angry waves, but ships of war have as yet steered clear of the breakers, and are fast drifting towards the harbor of peace. When the world learns to appreciate right actions; instead of criticising wrong words, the Center will rank first amongst her loyal sisters of the North. She has nobly "faced the music," filled her quotas without drafting, and when the "good time coming, comes," will hail with joy a Union imperishable, indissoluble henceforth and forever!

N. B.—Our neighbor, Mr. Luke Belden has purchased at a great expense, a lot of very choice sheep, numbering nearly or quite one hundred. Those interested in wool-growing will do well to give him a call and learn his method of treatment. Hours of admittance to the yard, from 8 o'clock a. m. till 5 p. m.

C.

A soldier's wife by marrying again forfeits all her pensions from the date of her marriage, and if she again becomes a widow she cannot resume them.

STRAWBERRIES have appeared in the New York market, and are marked at five dollars per basket, or about twenty dollars per quart. They are of course ripened in conservatories.

The Chinese are queer people to go to market. A gentleman at Canton writes that a neighbor of his got in his winter's provisions—a quarter of a horse and two barrels of bull dogs!

THE FAIR.—A donation of \$21 from a contribution in the Congregational church is gratefully acknowledged by the ladies who are striving to make the contributions from Janesville worthy the reputation of our patriotic city.

THE TOURNAMENT AT THE HYATT HOUSE, LAST EVENING.—The less said about it the better. It was creditable neither to the town nor to the citizens.

NOTICE.—A social meeting of all ladies and gentlemen interested in the fair will be held at the residence of Mrs. Jackson, at 7 o'clock Thursday, April 6th.

cost or value.

RIORDAN & LEECH,

Having fully determined to close out their entire

Stock, this sale will be

POSITIVE AND NO DELUSION.

The Proprietors grateful for the liberal patronage

bestowed on them, and wishing to recompense in some

measure the people who have so generously supported

the Establishment since its first advent in trade, have

determined to give them the full benefit of this great

reduction in price, and consequently announce that

the sale shall be exclusively retail and for the people.

L. DE GRAFF,

SUCCESSOR TO DE GRAFF & POOLE.

WASHINGTON WASHER!

Don't buy a Washing machine until you have ex-

amined our

Ten Dollar Washer.

SIMPLE, PRACTICAL, THOROUGH.

A Small Investment

That will bring Ample Return.

IT WILL WASH FROM ONE TO TWENTY PIECES

AT ONCE!

Our machines are as perfect as ever any machine

was. They will wash in the most perfect manner

all fabrics from a collar to a blanket, with the greatest

ease and without any loss of color. They will wash

hor and soap, but garments will last twice as long

when washed in them.

A Bank bill can be placed in the machine with a

dozen dirty collars, and the whole machine, with

out doing the least injury to the bill. It is the sim-

plest as well as the cheapest machine now in use.

The washing is entirely under the control of the

operator, so that dirty parts of a garment can be wash-

ed without unnecessarily rubbing the clean parts.

This machine can only be appreciated by seeing it in

operation. It will be on exhibition in a few days.
